Subject: Microsoft Settlement

To Whom it may concern;

I disagree with much of the proposed MS settlement. I'm afraid Microsoft will be like a bad dog who has a novie owner. The Dog (Microsoft) keeps biting people. The owner (DOJ) keeps saying, "he won't do it again.", or its "not the dog's fault."

I particularly disagree with Section III.A.2., and Section III.B. Don't give MS the power to bully OEM's. Don't give MS ANY power to bully ANY OEM's.

More should be added to Sections III.F. and III.G. MS should not be able to say or limit what other software is distributed with it's own software. MS shouldn't be able to limit what operating systems's their Redistributable Componenets can be run on.
